## SUMMARY

Full-stack software engineer with hands-on experience building production-grade enterprise applications. Skilled in developing scalable RESTful APIs, role-based access control systems, and responsive user interfaces. Proven ability to resolve real-world technical challenges including database migrations, API refactoring, and system integration.

## EDUCATION

**Bachelor of Technology in Computer Science & Engineering** 2023 - 2027

- Tezpur University, Tezpur, Assam | CGPA: 7.28

## TECHNICAL SKILLS

**Languages & Frameworks:** JavaScript, TypeScript, C++, React.js, Next.js, Node.js, Express.js

**Technologies:** RESTful APIs, MySQL, MongoDB, Role-Based Access Control, Git, Linux, Tailwind CSS

## WORK EXPERIENCE

**Software Engineering Intern | Indian Oil Corporation Limited (IOCL)** Dec'25 - Jan'26

- Developed full-stack Asset Management System managing enterprise assets with role-based access control for multi-tier user hierarchies
- Built RESTful APIs with Node.js, Express, and MySQL; designed normalized database schema with asset assignment workflows and audit logs
- Implemented dashboards with KPI tracking for asset usage, maintenance status, and lifecycle management using React and Recharts
- Resolved production issues including database migrations, API refactoring, and backend-frontend integration bugs
- Followed clean architecture with separated controllers, services, and routes for maintainable, scalable codebase

**Frontend Developer | Startup** Dec'24 - Jan'25

- Built responsive web application from scratch using React, TypeScript, and Next.js with mobile-first design approach
- Implemented client-side routing, navigation architecture, and reusable component library

## PROJECTS

**Asset Management System** | React, Node.js, Express, MySQL, Tailwind CSS | [GitHub](#) Dec'25 - Jan'26

- Engineered production-ready platform with role-based permissions, auto-unassignment logic, and admin override controls
- Designed comprehensive dashboard analytics with asset tracking, maintenance schedules, and real-time status monitoring
- Implemented responsive UI using React with shadcn/ui components and integrated data visualization with Recharts

## LEADERSHIP & ACTIVITIES

**Inter-Hostel Sports & Cultural Events** - Hostel representative
